THE CLASSIC SUN HAT

There is nothing more glamorous (or functional) than wearing a straw sun hat during a day under the sun. Sun hats will never go out of style and look fantastic with various outfits, whether you're going to a lake or a beach.

For one, a straw hat can protect you from the harmful rays of the sun while remaining stylish and comfortable. Additionally, sun hats are very lightweight — you won't feel them on top of your head after a long day of activities. You can sport these fashionable hats with a

colorful sundress or a plain shirt.

Summer Glow

Tired of streaky self-tanners? Australian Glow has the solution: our Express Dark Self Tanning Mousse. You'll love how quickly this mousse dries! In just one hour, you'll be able to put on your clothes and go about your day without any streaks or smudges.

It's called Australian Glow One Hour Express Self Tan Mousse for a reason. Simply apply the mousse to clean, exfoliated skin, and you're ready to go! Make sure that your skin is free from any oils, lotions, or perfumes before applying the mousse. This ensures that the mousse will adhere to your skin evenly for a streak-free tan.

NEW PRODUCT ALERT!!

Picture this: It's summertime and the sun is blazing but your skin is feeling a little dry. You've exfoliated with a loofah, used body lotion, and even tried that new scrub from the drugstore, but your skin still feels rough.

It seems like no matter what you do, your skin just won't feel smooth. You're not alone! Most people have to deal with dry skin at some point in their lives. The C & The Moon Malibu Made Body Scrub is the solution to all of your dry skin woes! This scrub is made with natural ingredients like coconut oil and sugar that will exfoliate and nourish your skin. happy birthday, AMERICA

Today, Americans enjoy the revelries that come with celebrating freedom because of the bravery and courage of people who fought for our independence. Over the years, the holiday has become associated with summertime, barbecue parties, and fireworks, but it's so much more than that. America's independence is a symbol of hope for everyone and a reminder that justice will always prevail.

Looking back at America's long journey, it's amazing how much this country has changed since its humble beginnings. Since then, the world has witnessed America grow into a powerful nation. It has been through many challenges, both internal and external. But each time, we have emerged stronger than before. The country has made great strides, especially in the last century.

Women in Business Meet Rhonda

It's no surprise that female-led companies tend to have high success rates as well...Rhonda being one of them. Rhonda married the love of her life, Mark, and they have been together for 31 years. She has two children and four grandchildren who call her "Mana." Rhonda has always had a love for dance which led her to a love for fitness. She was a competitive fitness professional and competed in the Reebok Championships where her team won the gold medal. She was also on an aerobics team that went to the playoffs for the Utah Jazz - this team went on to become the Jazz Dancers! Rhonda still has her love for fitness and began teaching aerobics 42 years ago.

Rhonda, alongside her husband, founded and owns Trilogy Medical Center. Before her life as a CEO, Rhonda was an OR Tech for over 20 years and has been in the Medical Aesthetics field for over 30 years. She started her love for aesthetics in her basement with permanent makeup and skin care services and continued that for 15 years before starting her own MedSpa business: Beauty Addix in late 2009. Due to the rapid success of Beauty Addix, Rhonda moved her business into a new facility only a few years later and renamed the business Trilogy Medical Center. This September will be Trilogy Medical Center's 9th Anniversary!

Rhonda is living an amazing life and is the epitome of an empowered woman, as witnessed by the people surrounding her. She expressed that she's extremely blessed, grateful, and never takes anything for granted.
