YOUR NEW GO-TO'S

It is easy to forget about sunglasses when the sun isn't shining, and the sky is a dreary gray, but they're just as important in the winter as they are in the summer. Whether it's a sunny day or not, shades add some serious style to any outfit. Vehla eyewear is leading the pack with its innovative new approach to eye-catching trends that won't go out of style for seasons to come. Vehla has been so popular in the past few months and seems to be only gaining lifelong fans.

One fashion company that specializes in trendy sunglasses is Ray-Ban. For years now, Ray-Ban has been creating their favorite styles with creative new looks to help bring out each individual's inner personality and self-expression.

From all of fashion history, sunglasses have been a strong fashion statement. Whether you are walking down the streets or headed to an important event, wearing sunglasses can create a very confident and savvy look.

A NEW TWIST ON TOOTHPASTE

As the movement for zero-waste continues to gain momentum, consumers want more environmentally friendly alternatives to everyday products. Items for hygiene are one example - especially toothpaste. It is estimated that 400 million toothpaste tubes are discarded in the U.S. annually, contributing to plastic pollution.

Thankfully, there are many alternatives to your name-brand toothpaste. One of these is Bite's zero-waste toothpaste, an innovative product that makes your daily routine more sustainable. It uses less plastic and has more natural ingredients to clean your mouth. This trendy item can give you a brighter smile and emptier landfills.

Trilogy's Appointment Policy

At Trilogy, our goal is to provide quality service to our clients in a timely manner. When a person does not show up, arrives late, or cancels their appointment - these instances affect both our providers and our clientele. Making a cancellation within less than 48 hours of notice significantly reduces our ability to fill that appointment slot, therefore preventing other clients from being able to schedule in that slot, not to mention causing an unproductive gap in our provider's schedules.

Why Do We Need an Appointment Cancellation/No-Show Policy?

Each time a person schedules an appointment with us, they are filling up space in our calendar that won't be available for other people. To be respectful to fellow clients and our provider's schedule, we ask everyone to let us know as soon as possible when they cannot make their scheduled appointment. Trilogy will now require clients to call or message us at least 48 hours in advance in order to avoid paying a cancellation or late fee.

Since these appointments are in high demand, notifying us ahead of time will give a chance for another client to access that open slot and ensure our provider's schedules are productive. When a client decides to cancel last minute, or simply, not show up, the provider does not have time to schedule another appointment. As a service provider, the provider relies on their clientele to follow through so they can continue to keep a full schedule. This is how a service provider makes their income.

If an appointment is cancelled after the 48-hour cancellation window has ended, the applicable Appointment Cancellation Fee will be charged to the client's card on file:

Injectable Services

30 minute appointments - \$100 Cancellation Fee
60+ minute appointments - \$150 Cancellation Fee

All Other Services

30 minute appointments - \$50 Cancellation Fee
60+ minute appointments - \$100 Cancellation Fee

Beginning March 1, 2022, Trilogy will be fully implementing our Appointment Cancellation and No-Show Policy.
