SEXUAL WELLNESS

V- Shot (Orgasm Shot)
ED- Shot (Erectile Dysfunction)
Core Intima (Vaginal Rejuvenation)
Emsella (Incontinence)

Imagine what it would feel like to feel energetic, vibrant, and sexy again. You sleep better, your headaches are gone, even your sour disposition has disappeared. Everyone around notices your new, positive, attitude. How different would your everyday life be?
Treatments like these can help you be your very best self again!

EMSELLA CHAIR

Remain fully clothed
Non- Invasive
Walk in, walk out
procedure

This unique technology revolutionizes the intimate health and wellness category by providing those suffering from incontinence with a completely non-invasive option.
Treats the entire pelvic floor, while improving your quality of life.
Emsella is FDA cleared for incontinence.

HORMONE THERAPY

Bio-identical, natural hormone replacement therapy can be delivered using tiny pellets inserted under the skin. Pellets are 100% identical to those created by the human body and are derived from natural plant-based ingredients. They are effective for several months and do not require daily dosing. Pellets provide a constant blood level of hormones while avoiding the daily fluctuations that occur with all other methods.

- Effective for both men and women
- Greater capacity to get in shape
- Relief from anxiety and depression
- Increased energy, focus, mental clarity and concentration
- Increased sexual arousal and sex drive
- Initial Phone Consultation Required

Our Nutrition program: 4 Week Program | 12 Week Program
You are seen in person every two weeks with virtual support in between as needed.

Get new insights and ideas on health, fitness, and more. You'll also get an in-depth guide to weight loss and nutrition to help with meal prep, workout plans, sleep management, and more. Plus, personal coaching session with one of our nutrition experts.

IV INFUSION THERAPY

IV Therapy is a delivery method for certain vitamins and fluids. Simply put, it boosts your nutrients directly in your bloodstream!

This method allows the therapy to quickly move through the veins. Depending on the type of IV, this treatment can strengthen your immunity or even give you more energy.

Refresh

Energy IV:

Give your body and mind a mega-boost with our Refresh IV Therapy cocktail including magnesium, vitamin c, and more such as B-12 vitamins. B-12 is essential for your brain function as it fights away fatigue and achieves mental-clarity!

Restore

Immunity IV:

Bring back life into your skin, hair, and nails with our Rejuvenate IV cocktail. This IV includes a wide variety of vitamins, such as vitamin c and calcium, but most importantly Biotin to focus in on overall collagen production – skin and hair health!

Rejuvenate

Beauty IV:

What everyone wants more of – immunity! You can have it with our Restore IV cocktail. Including the essentials like vitamin c, magnesium, calcium, and glutathione – this IV is a must have to keep your body healthy and happy.

Trilogy IV's Include: Ascorbic Acid, Magnesium Chloride, Calcium Gluconate, Thiamine HCl, Riboflavin, Pyridoxine HCl, Niacinamide, Dexpantenol, Cyanocobalamin, plus boosters such as Vitamin C, B-12, Biotin and Glutathione.

EMSCULPT

Trilogy is the place in Utah to experience Emsculpt!

Emsculpt is the only procedure to help both women and men contour the body by toning the underlying muscle. This treatment is also great at strengthening your core. In addition, the Emsculpt creates the world's first non-invasive butt lift procedure.

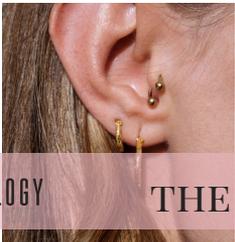

COOLSCULPTING ELITE

The CoolSculpting procedure is a new fat-loss procedure that works for both men and women. CoolSculpting is a safe, FDA-cleared procedure that freezes a section of fat on the abdomen, flanks, muffin-top, upper arm or inner thighs without damaging surrounding tissue. CoolSculpting can eliminate small pockets of fat under the chin or in the crease of the armpit or the side of the knee.

CoolSculpting is a non-invasive cosmetic procedure for the neck and body that is FDA-Cleared* and designed to work quickly and safely. Results are easily achieved in sometimes only one or two treatments and can be maintained through proper diet and exercise or even subsequent CoolSculpting treatments.

CoolSculpting has gained popularity in the Salt Lake City area because the treatment doesn't require a scalpel, surgery, downtime or major expense. When choosing a CoolSculpting provider in Utah look for a Diamond Status CoolSculpting Provider as this indicates the highest level of expertise. BTL Cellutone® aides in achieving the best results during our CoolSculpting treatments.
