

TRILOGYS

9th Anniversary

September 2022 Edition

Last Year's Anniversary Party

THE BEST MEMORIES

Last year's anniversary party was filled with laughs, gourmet food, specialty desserts, signature cocktails, and nonstop dancing. It was a night to remember. We hope to make every anniversary something special. We look forward to celebrating with you this year.

TRILOGY TRENDS *the little black dress...*

A must-have go-to in every women's closet is the classic little black dress. In every decade whether long or short the classic black dress has always been a 10 out of 10. A few things to know about the LBD.....it looks flattering on every body type. No matter what your shape or size is, it's a promise all will love it. It's one of the most universal pieces in a woman's closet. While the dress itself is effortless, a shirt tied around the waist with flat sandals can make it casual for a daytime activity or turning errands all the while feeling cute and confident at the same time! At those certain times when you need to look more dressy throw a jacket on, leave it plain, add in the classic pearl necklace with heels. The LBD is so easy to get the vibe you want no matter what that is. Dressy or casual, you're out the door QUICK and feeling on top of your game. The little black dress can be found in Nordstrom, Neiman Marcus, The White Black Market, Dillards, and Amazon. How will you wear your little black dress to our anniversary party? Send us your suggestions and ideas. We would love to know!
