IM Injections

Over 50% of Americans are overweight or at risk of becoming obese.

Obesity is a disease. It is affected by your genetics, hormones, environment, and not just your choices.

At Trilogy we offer many medical weight loss solutions that take your individual circumstances into consideration and help find a solution that works for your body.

We offer that in a compassionate, judgment free environment, where your success is our goal.

HORMONE THERAPY

Bioidentical hormones can be delivered through creams, injectables, pellets and some prescriptions. The best route will always be determined based on your health history, preference and provider discretion.

- Effective for both men and women
- Greater capacity to get in shape
- Relief from anxiety and depression
- Increased energy, focus, mental clarity and concentration
- Increased sexual arousal and sex drive
- Initial Phone Consultation Required

SEXUAL WELLNESS

Core Intima (Vaginal Rejuvenation)

Is a medical laser treatment that delivers controlled CO₂ energy to the vaginal or vulva tissue in order to promote collagen growth to improve skin tone, texture, and appearance. This non-painful laser can treat the following symptoms: pain with intercourse, vaginal dryness, vaginal rejuvenation, stress urinary incontinence & urinary leakage.

Emsella (Incontinence)

Treats the entire pelvic floor, while improving your quality of life. Emsella is FDA cleared for incontinence. Non-invasive treatment.

SYLFIRM & EXOSOMES

Treatments

SYLFIRM

Sylfirm is the #1 most requested treatment to date.

The world's first & only FDA cleared Pulsed Wave and Continuous Wave Radio Frequency, Micro Needling device targeting both skin laxity and pigmentation for ultimate skin revitalization.

Radio Frequency provides heat that stimulates collagen production which has been found to lead to tighter, younger looking skin. Combined with state-of-the art microneedling, patients experience optimal results.

Minimal to no down time

Little to no pain

Improves skin laxity

Minimizes Appearance of Scars

Improves skin texture and tone

Improves skin Revitalization

EXOSOMES

Exosome Regenerative Complex is an intensive dual-action complex formulated to absorb quickly into the skin delivering the concentrated power of stem cell derived lyophilized, potent growth factors, peptides, coenzymes, minerals, amino acids and vitamins.

Post Care topical use

Reduces appearance of age related pigment

Skin appears more firm and youthful

Reduces appearance of fine lines and wrinkles

Hydrates and nourishes skin

Promotes a more radiant and even toned complexion

FOR THOSE WHO WANT TO LIVE AND BE REMEMBERED

BODY SHOP

treatments

EMSCULPT

Trilogy is the place in Utah to experience Emsculpt!

Emsculpt is the only procedure to help both women and men contour the body by toning the underlying muscle. This treatment is also great at strengthening your core. In addition, the Emsculpt creates the world's first non-invasive butt lift procedure.

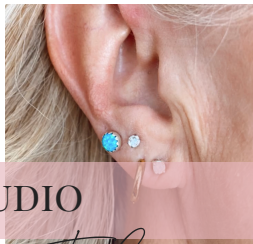

COOLSCULPTING ELITE

The CoolSculpting procedure is a new fat-loss procedure that works for both men and women. CoolSculpting is a safe, FDA-cleared procedure that freezes a section of fat on the abdomen, flanks, muffin-top, upper arm or inner thighs without damaging surrounding tissue. CoolSculpting can eliminate small pockets of fat under the chin or in the crease of the armpit or the side of the knee.

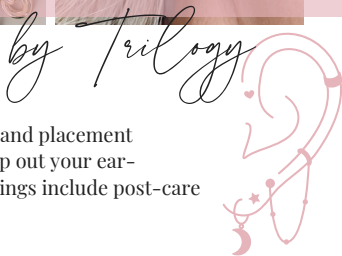

CoolSculpting is a non-invasive cosmetic procedure for the neck and body that is FDA-Cleared* and designed to work quickly and safely. Results are easily achieved in sometimes only one or two treatments and can be maintained through proper diet and exercise or even subsequent CoolSculpting treatments.

CoolSculpting has gained popularity in the Salt Lake City area because the treatment doesn't require a scalpel, surgery, downtime or major expense. When choosing a CoolSculpting provider in Utah look for a Diamond Status CoolSculpting Provider as this indicates the highest level of expertise. BTL Cellutone® aides in achieving the best results during our CoolSculpting treatments.
